ARCOPA set up guidelines for « **Responsible fishing** » in 2008, describing responsibilities on shore and in shore. These guidelines defined duties related to the resource, environment, workers, sanitary and commercial quality of the products. Looking to demonstrate its commitment, ARCOPA has requested an independent auditing and obtain **the recognition by BUREAU VERITAS in April 2009**. Products target with the “Responsible fishing” sign, are mandatory for the application of the guidelines.
